**Subject:** RE: [DigitalGov Search] Monthly Report for April 2015

Just so I'm understanding what I'm seeing:

These numbers reflect the usage of the onsite search tool. So 7000+ searches last month on the MSHDA site. Over 6000+ searches lead to clicks, right?

Just so I'm understanding what I'm seeing:

These numbers reflect the usage of the onsite search tool. So 7000+ searches last month on the MSHDA site. Over 6000+ searches lead to clicks, right?

Just so I'm understanding what I'm seeing:

These numbers reflect the usage of the onsite search tool. So 7000+ searches last month on the MSHDA site. Over 6000+ searches lead to clicks, right?

Hmm.  
Well,

1.  
MiScorecard Performance Summary link is still showing in the Quicklinks for this page? [http://www.michigan.gov/mshda/0,4641,7-141-49317\\_50737---,00.html](http://www.michigan.gov/mshda/0,4641,7-141-49317_50737---,00.html)

It shows as Live (Expired). Yes, I refreshed me browsah.

2.  
Hey, any reason why we couldn't move the Scorecard graphic down to the footer? Or just use a link in the footer?

3.  
Just thinking aloud: I think we're going to be moving more toward a format like the DNR is using, where they essentially have a Footer 1 and Footer 2 situation.

Would like to get rid of the right nav area completely and make the left nav maybe 10 px wider. Any challenges with setting this up? Any way to stage this before flipping the switch and making it live?

4.  
Any way to move Related Items from right nav to the bottom of the content body to accomplish a more bloggish feel? This would also help with thinner pages.

Thoughts?

Hey, can you refresh our right nav, please?  
I gave Joel a bunch of questions to fling at you. Enjoy!

Just so I'm understanding what I'm seeing:

These numbers reflect the usage of the onsite search tool. So 7000+ searches last month on the MSHDA site. Over 6000+ searches lead to clicks, right?

**To:** Schoenherr, Matthew (MSHDA)  
**Subject:** RE: [DigitalGov Search] Monthly Report for April 2015

Yup.

**To:** Estill, John (DTMB)  
**Subject:** RE: [DigitalGov Search] Monthly Report for April 2015

Just so I'm understanding what I'm seeing:

These numbers reflect the usage of the onsite search tool. So 7000+ searches last month on the MSHDA site. Over 6000+ searches lead to clicks, right?

**From:** Estill, John (DTMB)  
**Sent:** Monday, May 04, 2015 3:13 PM  
**To:** Quealy, Erica (DHS); Ellsworth, Jeffrey (DCH); Andorfer, Bob (MDA); Miller, Jacki (MDCR); Thompson, Elizabeth (MDCR); Schoenherr, Matthew (MSHDA); Cossar, Benjamin (Treasury)

For my lead Site Admins. The monthly onsite search results. The individual agency websites are included.

Yes. I can slice and dice it by week if needed. (It gets repetitive, though) Do you want it by month or just one big time slice?

Just so I'm understanding what I'm seeing:

These numbers reflect the usage of the onsite search tool. So 7000+ searches last month on the MSHDA site. Over 6000+ searches lead to clicks, right?

Great, John! Thanks.

It should be a relatively small site and it should be kept very basic like the [www.mi.gov/Detroitcantwait](http://www.mi.gov/Detroitcantwait) or [www.michigan.gov/highlandparkschools](http://www.michigan.gov/highlandparkschools) sites.

I can assist with the creation & publishing of the content. Just let me know what you'll need from me, and I'll be in touch later today as I learn more about exactly what they want included on this site.

Thanks again

Josh

Hi Josh,

Please work with John Estill and Michelle Stiffler to help get the site created. They are also involved in the launching of the new MDDHS this week so as long as this is going to be a relative small site with not a lot of back and forth changes

they should be able to get it done by Friday. Is there someone that can assist with the creation and the publishing of the content so that John and Michelle can focus on getting the graphics and structure of the site built out?

Thanks,

Hi John,

I spoke with Estill earlier about this and he said that I would need to talk to you.

This Friday, there will be a press event regarding the situation with Flint water, and Governor Snyder would like us to create a new webpage that can be shared as a resource to help Flint residents.

We're still discussing what the content would be, but I imagine it looking similar to: [www.mi.gov/Detroitcantwait](http://www.mi.gov/Detroitcantwait) or [www.michigan.gov/highlandparkschools](http://www.michigan.gov/highlandparkschools)

The 'header' should be: "Understanding the Flint Drinking Water Situation"

Then, on the homepage, we'd want the following sections:

- 1) Statement from the Governor
- 2) Read the latest updates
- 3) Additional resources
- 4) FAQs

I will make a graphic to go next to the statement from the Governor.

I'm sorry this is so last minute. Tomorrow we should have a better idea of what content we would like to post on the page. Again, this should be something simple that we can direct residents to that they can use as a resource.

Thank you for your help. Please email/call with any questions.

Thanks

Josh,

Below is the in-progress shell, with a couple of stock images just for fill and the categories that were initially requested. I have created a 'Flint Water Admin' group and added you to it, so you should be all set with adding content when you're ready.

Just let us know what cosmetic changes you need, and if you would like any special components such as toggle and/or accordion for the FAQ, etc.

I spoke with Estill earlier about this and he said that I would need to talk to you.

This Friday, there will be a press event regarding the situation with Flint water, and Governor Snyder would like us to create a new webpage that can be shared as a resource to help Flint residents.

We're still discussing what the content would be, but I imagine it looking similar to: [www.mi.gov/Detroitcantwait](http://www.mi.gov/Detroitcantwait) or [www.michigan.gov/highlandparkschools](http://www.michigan.gov/highlandparkschools)

The 'header' should be: "Understanding the Flint Drinking Water Situation"

Then, on the homepage, we'd want the following sections:

- 1) Statement from the Governor
- 2) Read the latest updates
- 3) Additional resources
- 4) FAQs

I will make a graphic to go next to the statement from the Governor.

I'm sorry this is so last minute. Tomorrow we should have a better idea of what content we would like to post on the page. Again, this should be something simple that we can direct residents to that they can use as a resource.

Thank you for your help. Please email/call with any questions.

Thanks

Bob, Eric;

Let us know what your plans are, and if you need any assistance. The new site requested by the Governor's office is already in-progress and we are waiting for content and possible design changes.

Hi everyone,

Regarding the Flint water website, it seems there might be two separate projects happening at once.

I just spoke with Karen (PIO at DEQ), and she said that Bob Andorfer and Eric Shaw are working on a flint water site.

Our team in the Gov's office asked John Estill and Michelle Stiffler to start on a site, too .

I'm not sure if you four have been working together, but we wanted to make sure moving forward that we are all on the same page.

I have reviewed the link to the site provided below. I really like the way it looks and I would lean toward working with Michelle for a couple reasons. The first is that I am new in my role and I cannot update or change much on my own yet. Second, I am going to be in Flint covering the event on Friday and not able to make on the fly changes to the page that may pop up. So I would prefer that the DEQ doesn't host the page, as long as we can request/make changes as needed going forward. I can work with Karen to get you all the materials you will need for the initial page setup too. Does that make sense to everyone as a plan for this?

Hi Josh,

Please work with John Estill and Michelle Stiffler to help get the site created. They are also involved in the launching of the new MDDHS this week so as long as this is going to be a relative small site with not a lot of back and forth changes they should be able to get it done by Friday. Is there someone that can assist with the creation and the publishing of the content so that John and Michelle can focus on getting the graphics and structure of the site built out?

Thanks,

I have reviewed the link to the site provided below. I really like the way it looks and I would lean toward working with Michelle for a couple reasons. The first is that I am new in my role and I cannot update or change much on my own yet. Second, I am going to be in Flint covering the event on Friday and not able to make on the fly changes to the page that may pop up. So I would prefer that the DEQ doesn't host the page, as long as we can request/make changes as needed going forward. I can work with Karen to get you all the materials you will need for the initial page setup too. Does that make sense to everyone as a plan for this?

Back to square one ☺ Let me know what you want to do. We can just kill the new site and give you the marketing URL of /flintwater if you'd like, and point it to an area on DEQ.

Let me know if you'd like copies of the images, as they have already been purchased from istockphoto.com

Hi all,

Bob and Eric can both have the authority to edit/post content.

Regarding the location of the page, the Governor's office discussed it and we're comfortable having it on the DEQ page where they originally planned on having it and letting them post/edit content moving forward. The marketing url should still be [www.mi.gov/flintwater](http://www.mi.gov/flintwater).

Please let me know if you have any questions.

It should be a relatively small site and it should be kept very basic like the [www.mi.gov/Detroitcantwait](http://www.mi.gov/Detroitcantwait) or [www.michigan.gov/highlandparkschools](http://www.michigan.gov/highlandparkschools) sites.

I can assist with the creation & publishing of the content. Just let me know what you'll need from me, and I'll be in touch later today as I learn more about exactly what they want included on this site.

Thanks again

Hi Josh,

Please work with John Estill and Michelle Stiffler to help get the site created. They are also involved in the launching of the new MDDHS this week so as long as this is going to be a relative small site with not a lot of back and forth changes they should be able to get it done by Friday. Is there someone that can assist with the creation and the publishing of the content so that John and Michelle can focus on getting the graphics and structure of the site built out?

Michelle:

Just checked to make sure that the /flintwater shortcut points to the page that I created for DEQ (and it does) which will go live at 1:30 today, but wondered if we could also have the /FlintWater to point to it as well?

It was my understanding that the capitalization did not matter with the shortcuts, but a quick check shows that is not the case this time. (I probably misunderstood.) The caps version is used in all the printed material from the Gov's Office.

Bob and Eric can both have the authority to edit/post content.

Regarding the location of the page, the Governor's office discussed it and we're comfortable having it on the DEQ page where they originally planned on having it and letting them post/edit content moving forward. The marketing url should still be [www.mi.gov/flintwater](http://www.mi.gov/flintwater).

Please let me know if you have any questions.

9	The Trace Metals Section provides a wide range of clinical and environmental laboratory testing for healthier people and communities through partnerships, communication, and technical innovation. With approximately 1,500 square feet, the laboratory has a cleanroom in addition to designated environmental and clinical testing areas. With the use of their cleanroom the laboratory is able to test for low level metals using either their inductively coupled plasma with dynamic reaction cell mass spectrometry (ICP-DRC-MS) or their liquid chromatography inductively coupled mass spectrometry (LC-ICP-MS) technologies. Similarly, the laboratory performs environmental analysis using either a microwave or hot block digestion in conjunction with inductively coupled plasma atomic emission spectrometry (ICP-AES) or ICP-MS technologies. Lastly, the laboratory has the ability to bypass a digestion process and place a sample directly on the instrument for analysis by using their thermal decomposition/atomic absorption spectrophotometry (TD/AA) instrumentation.									
10	The Trace Metals Section works in conjunction with the Lead Hazard Remediation and Childhood Lead Poisoning Prevention Programs to detect lead hazards in housing and treat lead poisoned children in Michigan. Second, the Trace Metals Section works alongside the MDHHS Bureau of Laboratories (BOL) Analytical Chemistry Section identifying mercury levels in fish to generate the eat safe fish advisory for the State of Michigan. Finally, the Trace Metals Section performs Bio-Monitoring testing and serves as a surge capacity laboratory, identified as such by the Center for Disease Control and Prevention (CDC), for Chemical Terrorism specimens.

26	Staff Overview:									
27	The Trace Metals Section is comprised of a Section Manager; ELLAP Technical Manager; ELLAP QA Manager; and 5 Analysts which have over 95 years of combined experience in clinical and environmental laboratory practices. With the wide range of testing performed in the laboratory the staff has extensive experience in multi-element analysis using a wide range of matrices including speciation, method development and validation, and written documentation and implementation. Along with having technical staff specialists for operating and maintaining the laboratory's advanced instrumentation: 3 ICP-MS's; an ICP-AES; and 2 TD/AA's, the laboratory's technical and quality assurance managers assure adherence to AIHA-LAP, LCC's regulatory requirements while the section manager assures adherence to the CAP and CLIA '88 standards.

12	<b>Information on Biomonitoring Testing:</b>								
13	The Division of Laboratory Sciences at the Center for Disease Control and Prevention (CDC) coordinates the National Biomonitoring Program (NBP) which offers an assessment of nutritional status and the ex								
14	biomonitoring is recognized as a standard for assessing people's exposure to toxic substances and for responding to serious environmental public health issues.								
15									
16	The Trace Metals Section tests for environmental metals such as lead, cadmium, mercury, arsenic and manganese which are all toxic to the body at certain concentrations. These metals are not essential or r								
17	environment. Exposure to such metals occurs through inhalation, ingestion, or absorption which leads to accumulation of these metals in the body.

24	<b>Principles Of The Test:</b>								
25	The Trace Metals Section performs metal analysis on urine, blood, hair, and tissue specimens using inductively coupled plasma mass spectrometry (ICP-MS). Once the specimens have been assessed and ac
